## CAPABLANCA GETS DRAW

While Jose R. Capablanca was drawing his game with Boris Kostic in the first round of the final stage of the Rice Memorial Chess Masters Tournament at the Cafe Boulevard yesterday, David Janowski of Paris scored one of the most brilliantly played games of the tournament at the expense of Oscar Chajes. In the opinion of Capablanca, Janowski's game is likely to carry off the first brilliancy prize, unless the feat of the French champion is surpassed by one of the remaining rounds of the tournament.

Janowski had the white pieces in a queen's pawn opening, which was turned into a regular queen's gambit declined. On the seventeenth move, the Parsa expert saw his opportunity at a time when Chajes had left his king's wing somewhat unprotected, and sacrificed his bishop for two pawns. The reader

...of the operation came in the form of the next few moves, during which Janowski twice offered the exchange and finally cornered the Black king, sacrificing his queen on the twenty-sixth move in order to effect checkmate. From beginning to end Kasparov had played the French defense in answer to Capablanca's 1 P-K4, gave the Cuban no opportunity to establish a superior position. When Capablanca castled on the queen's side of the board, the Serbian master boldly stowed away his king on the other side. Each in turn tried to

The minor pieces in due course were exchanged, the rooks followed next and finally only queens were left on the board with which to operate. These, too, were exchanged on the forty-first move and then the jockeying for position in a pawn ending ensued. A draw was agreed upon after fifty-six moves.

The "World" and "Star" champions had a very similar match, but will take part in the second round at the City Boulevard on Friday, playing black against Koestel. The other match will be Charles vs. Capablanca. The standing of the players:

Players	W	L	Draws	W. L.
Capablanca	10	1	1	10 1 1
Koestel	9	2	1	9 2 1
Konowski	5	5	1	5 5 1
